

Abstract

1. Reddit project
2. Display Advertising project
3. SP course TA work

Description

1. **Reddit project**

I implemented word2vec models more efficiently. Also we are trying to get some results on smaller graph. We need to deploy the new server ASAP.

2. **Display Advertising project**

I'm working on my thesis chapter two.

3. **SP course TA work** I solved Midterm II proposed questions.

Next Week

• **Reddit project**

We may have a meeting with Sina and Kevin to plan our route. I think we need to make sure what's the purpose of this research and start planning more precisely for it.

We are going to test GCN on the small graph and compare word embedding techniques after deploying the new server.

• **Display Advertising project**

Write remaining parts about Sparse FM in thesis. Read papers about Attentional FM, Deep Interest Network, Deep & Cross Networks, Attention Stacked AutoEncoder, DeepFM and at last Wide and Deep network; And write their parts in the thesis.

• **SP course TA work**

Correct Quiz 7
