April 25, 2020

Mohammadreza Rezaei  
morezaei@ce.sharif.edu

Report No. 76  
99/01/30- 99/02/05

**Abstract**

- 1. Reddit project
- 2. SLT TA

**Description**

1. **Reddit project**  
We had a meeting with Hamid. We decided to gather some information about age groups usually used in researches.  
We implemented our version of BipartiteGCN and ran a number of experiments on it.  
Best result was about 46%. Previous best was about 42%.  
We are currently experimenting on other ideas about the architecture.

**Next Week**

- **Display Advertising project** Gather information about competing papers and their results on common datasets.
- **Reddit project** Continue experimenting on BipartiteGCN models.  
Have a meeting with Sina.
