

Abstract

1. AIC 2020 staff work
2. Stochastic Processes TA work
3. Display Advertising project
4. Social and Economic Networks Course work

Description

1. **AIC staff work**
I solved most of the ambiguities about the features. But i haven't tested the DQN's learning process and results.
2. **Stochastic Processes TA work**
I worked on HW4 but it hasn't finished yet.
3. **Display Advertising project**
I finished reviewing my presentations (Animations / Better notations)
I presented it and got away with it!
4. **Social and Economic Networks Course work**
I finished HW5 of SEN course and finally got rid of all courses.

Next Week

- **Stochastic Processes TA work**
Finish HW4 correction.
Resolve the possible protests in grading the exams.
- **AIC 2020 staff work**
Train the DQN and get the results. Then start to work on handcrafted parts.
- **Display Advertising project**
Arrange the weekly meeting with Abbas.
Ask for real data if possible.
- **Reddit project**
Meeting with Hamid and start to think about why GCN doesn't work well on our data.
Skype with Sina to arrange a weekly meetings.
Arrange a meeting with Erfan Logmani if possible to talk about his thesis (His thesis regards our current GCN).
- **CTB project**
Get back to work on the code.
