Report No. 59

98/09/30- 98/10/06

Abstract

1. Reddit project
2. Display Advertising project
3. SP course TA work
4. SEN course work

Description

1. **Reddit project**
   We have directly downloaded some part of the data we previously wanted to gather by crawling. We are trying to compare the embedding methods: Bert and GloVe (Weighted by TFIDF or equally)

   We are going to test GCN on the small graph (10000 users) and compare our word embedding techniques.

2. **Display Advertising project**
   I finished second chapter of my thesis. (finally!)

   I am working on my seminar report. Current version has much more pages but doesn't have any new idea. I have to rewrite the report and change its language from thesis type to reviewing paper type.

3. **SP course TA work**
   I defined some questions for final exam.

4. **SEN course work**
   I worked on SEN HW4 but its theoretical part hasn't finished yet.

Next Week

- **Reddit project**

  We may have a meeting with Sina and Kevin since our embedding test got completed.

  We also need to download the rest of the dataset through Mr. Mohseni.

- **Display Advertising project**

  Rewrite seminar report. Change its accent and lower its page number. Add a proposing idea.

  Prepare presentation for the seminar and DML meeting.

- **SP course TA work**

  Correct Quiz 7

- **SEN course work**

  Finish HW4 of SEN course.
