Weekly Report   July 5, 2019

Mohammadreza Rezaei   Report No. 34

h72211reza@gmail.com   98/04/08- 98/04/14

Abstract

1. Work on DL Final Project
2. Go to tabriz (too many meetings)

Description

1. **Work on DL Final Project**
   I trained an Convolutional AutoEncoder on LaTeX formulas. Then i trained a LSTM Language Model on LaTeX scripts. Im still working on LSTM network and their connection. This week i provided a simpler way to save and load the model weights.

2. **Go to tabriz (too many meetings)**
   I came to tabriz and did alot of things (olympiad / prize / book / project / meeting / party with friends / meet relatives) but i hadn't come back to tehran yet. Highway is closed and i planned to come back at saturday night to catch Lab's weekly meeting at sunday morning.

Next Week

- Work on DL Final Project

- Go back to tehran (Highway was closed)

- Image Processing HW5

- Image Processing Final Project (Review and implement and write)

- SLT Presentation 5 - Interpretable Learning 2 (ask for more time?)

- SLT Final project (ask for more time?)
