Report No. 58

98/09/23- 98/09/29

Abstract

1. Reddit project
2. Display Advertising project
3. SP course TA work

Description

1. **Reddit project**

   We changed our plans, we are going to download a dataset through Mr. Mohseni and then try to process it in our own server. We hope it won't disappoint us!

   We also are looking for a better summarizing technique for the text (Instead of averaging all words in the comment).

2. **Display Advertising project**

   I added some more papers to my thesis chapter two. (Including SFM paper)

   I am working on my seminar report.

3. **SP course TA work**

   I solved Midterm II proposed questions.

   I went to TA class and solved some questions.

Next Week

- **Reddit project**

  We may have a meeting with Sina and Kevin to plan our route. I think we need to make sure whats the purpose of this research and start planning more precisely for it.

  We are going to test GCN on the small graph and compare word embedding techniques after downloading the data and finishing the preprocessing stage.

- **Display Advertising project**

  Write down seminar report. Prepare presentation for it.

- **SP course TA work**

  Define questions for final exam.

  Correct Quiz 7

- **SEN course work**

  Write HW4 of SEN course. (also read the corresponding slides)
