2. AIC 2020 staff work
3. Social and Economic Networks Course work
4. Reddit project

Description

1. **Stochastic Processes TA work**
   I finished grading HW4.

   I also resolved the protests of students.

2. **AIC staff work**
   I started to watch RL course of David Silver and it's 30% done.

3. **Social and Economic Networks Course work**
   I finished HW5 of SEN course and finally got rid of all courses.

4. **Reddit project**
   We had a meeting with Hamid and talked about Targets of this project.

   We had another meeting with Hamid and Sina and talked about future of our research.

   I searched for some advise for comment embedding part of our model and found out that Transformer networks are suitable for our work, i came up with an idea.

Next Week
