Weekly Report   June 20, 2020

Mohammadreza Rezaei   Report No. 84

morezaei@ce.sharif.edu   99/03/24- 99/03/30

Abstract

1. Display Advertising project
2. Reddit project
3. SLT TA work

Description

1. **Display Advertising project**
   I had a meeting with Abbas.

   I worked on unifying OutBrain dataset into one table. It's not finished yet.

2. **Reddit project**
   We had a meeting with Hamid. We planned to have another meeting at Thursday, but he didn't reply my email.

   Sadegh is going to begin his internship and I'm working on my thesis. Meaning that there must be a third person to complete our team. If we cannot find this third person, we may lose all the deadlines for this project.

3. **SLT TA work**
   I defined some questions for the SLT final exam.

   I think it was my last report about the TA work.

Next Week

- **Display Advertising project**

  Finish the data code for OutBrain.

  Do write the code for other two datasets.

- **Reddit project**

  Work on adding GAT idea to the BGNN structure.

  Ask Hamid for help.
