Mohammadreza Rezaei Report No. 86

morezaei@ce.sharif.edu 99/04/07- 99/04/13

Abstract

1. Display Advertising project
2. Reddit project
3. SLT TA work

Description

1. **Display Advertising project**
   I had a meeting with Abbas.

   I finished the code needed for the first dataset. I also migrated to TensorFlow 2.1 and transfered my model implementation into this version. It's just a little bit of code remaining about feeding the categorical data into model, but it won't take long until I finish it.

2. **Reddit project**
   I had a meeting with Hamid, he said he'll catch up with the research by reading some papers and help us with adding a new member to our team. But still I'm waiting for his call.

3. **SLT TA work**
   I wrote solution for the questions which I had defined them for the final exam. I corrected my part of the final exam. I hope there's no more TA task for me. :)

Next Week

- **Display Advertising project**

  Finish last parts of code needed for the first dataset and get the model running on it.

- **Reddit project**

  Set a meeting with Hamid and receive some help.
