Weekly Report   January 18, 2020

Mohammadreza Rezaei   Report No. 62

morezaei@ce.sharif.edu   98/10/21- 98/10/27

Abstract

1. SEN course work
2. Display Advertising project
3. AIC staff work

Description

1. **SEN course work**

   I studied for Social and Economic Networks course final exam.

2. **Display Advertising project**

   I made presentation for my seminar and presented it in DML meeting.

   I implemented my approach and tested it on Small Avazu dataset which i made last week.

   I reviewed my presentation and used some advice to improve it.

3. **AIC staff work**

   I started to make a Deep Q Learning algorithm for testing on AIC-2020. It didn't go much further because of serious problems in their python client. But i'm still working on my code.

Next Week

- **AIC 2020 staff work**

  I'm going to work on DQN.

- **Display Advertising project**

  Implement two or three baselines to compare my idea to them.

  Rewrite the seminar report and hand it to Dr. Soleymani.

- **Work on CTB app**

  Work on the app.
